# Street Smart Firefighting Tactics 2017

**June 4th 9am-5pm**

**Lt. Tim Klett**  
**F.D.N.Y.**

## **Engine Company Operations** **"From the Fire house to the Fire floor"**

This grass roots course will cover Engine company operations in stretching and operating the critical first line and will cover all the positions of the first due Engine. The Engine Officers responsibilities, before during and after a working fire. An in depth look at the Nozzle mans Duties of stretching, advancing and operating the nozzle. It will stress the importance of a well-trained backup man. It will also cover the chauffeurs position and the doorman position. This course will also cover the simple tools, any well trained Engine firefighter should carry during everyday activities. It will also cover how the nozzle team should react to different fire ground emergencies. The success of every operation depends on a well-trained determined company. This back to basics no nonsense course will take you through the right steps to complete this mission.

## **Capt Gabriel Angemi** **Camden Fire Department**

### **"Straightforward Firefighting Manifest"**

Fostering a positive, aggressive firefighting culture is the hallmark of a winning organization. Firefighter and Company Officer positive attitudes and adaptability is at the root of every successful Fire Company. Civilians we serve and the other members of our agency rely on the initial arriving units ability to handle anything they are confronted with. This lecture discusses factors contributing to successful fire companies, winning fire attack strategy from those companies, and attaining clear, concise operational goals. Firefighters utilizing their given resources need to place emphasis on solid fundamentals to put forth their best efforts. Training, coordination, and communication help enhance these fundamentals and therefore more operational fluidity. This lecture will discuss engine and truck tactics and concerns but will also show firefighters how understanding their agency's mission statement will motivate and inspire us to get back to our basics.
