### ARTICLE III

#### WORKING CONDITIONS

##### 1. **Bulletin Board**

a. The Union shall have the privilege of displaying a bulletin board at each station to acquaint the members with union matters at such a place that it will not conflict with Fire Department bulletin boards.

##### 2. **Working Conditions and Records**

a. In the event members are required to work longer than their regular tour of duty, it shall be the responsibility of the officer in charge to see that these members are relieved in an expeditious manner by the oncoming shift.

All overtime will be earned in one-half hour increments. A fifteen minute rule shall apply to overtime earned. If said member works fifteen minutes or less of a half hour increment, said member will earn overtime reduced to the next lower half hour. If said member works over fifteen minutes of a half hour increment, said member will earn overtime equivalent to the next full half hour increment. Example: A member works (1) hour and forty five (45) minutes overtime, said member shall earn one and one-half hour (1.5) overtime. A member works one (1) hour and forty six (46) minutes shall earn two (2) hours overtime. In lieu of overtime compensation, employees may elect to receive compensatory time for any overtime hours worked. Compensatory time shall be earned at the same rate as the overtime pay would have been earned. This provision does not preclude any other provisions (including minimum call-in time) in any other parts of this agreement.

b. All overtime will be maintained by seniority lists, the records of which shall be easily accessible to all members at all times. For fire fighters and fire officers, there will be one list for all other overtime. These records shall show the date of call and response from each person called. The response record shall include whether the overtime is refused, the member is on duty, sick or on vacation or if there was no answer. If a member refused or was not available for overtime duty, he will automatically be passed by until a complete cycle of the seniority list has

been made.

Fire fighter calls are to be made on a firefighter for firefighter and officer for officer basis. If a firefighter is being called for, and there is overtime still available after the firefighter call-in list has been exhausted, officers will then be called. If there is overtime still available after the officer call-in list has been exhausted, firefighters will then be called.

If an officer is being called for, and there is overtime still available after a complete cycle of the officer call-in list, firefighters will then be called. If there is overtime still available after a complete cycle of the firefighter call-in list, officers will then be called.

The last member working overtime on each list will be marked and the next lower ranking member on each list shall be first to be called for the next available overtime on that list.

In filling any additional minimum staffing shift vacancies, the rank of the member creating the necessity for the overtime will determine the list to be called to fill the vacancy, e.g., if an additional vacancy is created by the absence of a firefighter, the firefighter's list shall be called first to fill the vacancy. If an additional vacancy is created by the absence of an officer, the officer's list shall be called first to fill the vacancy.

If the overtime call-in time is less than five (5) hours, the overtime call-in list will not cycle. That is, the first employee called for overtime for less than five (5) hours will be the first employee called for the next available overtime, regardless of who worked the overtime of less than five (5) hours.

The calls shall be made, whenever possible, within 48 hours of the first scheduled day or night requiring overtime call-ins. Whenever possible, the officer in charge will start calling for overtime at 6:00 P.M. Under no circumstance shall the officer call scheduled overtime before 6:00 P.M.

Whenever emergency overtime is called including second alarms, employees' time will start at the time of the call, as long as the employee arrives at the scene or the fire station within one half (1/2) hour of being contacted. If employees do not arrive within one half (1/2) hour of being contacted, the employee shall be paid from the arrival time at the scene or station.

c. A roster of each man and his accumulated time shall be kept where it is easily accessible by all members of the department at all times. Accumulated time shall be entered in the record, not to exceed one week after being earned or used.

d. Employees not expecting to work because of sickness, or other justifiable causes must notify their respective superior officer no less than one hour before schedule time.

### 3. **Leave of Absence**

5. **Promotions**

All promotions to Lieutenant and Captain in the Fire Department shall be made from the ranks of permanently appointed members of the bargaining unit provided Civil Service can provide a certified list of eligibles for promotion. In instances in which Civil Service cannot provide said list, the City may appoint from the Civil Service open competitive list of eligibles.

6. **Special Details, Jobs, Assignments**

The Fire Chief will discuss with the Union President or his designee any job or assignment not contained in the Civil Service position duty specifications before posting said job or assignment for interested employees to apply.

All members of the negotiating committee are entitled to the entire day off for interest arbitration proceedings on the days of the proceedings.

9. **Union Business**

Union representatives and members may discuss Union business, anytime provided said discussion does not interfere with work duties.

**10. Mutual Aid**

The City agrees not to call mutual aid for all fire department operations, excluding necessary emergency ambulance responses, until all City firefighters have been called first. This does not preclude the City from calling mutual aid concurrently with City firefighters or from securing specialized services beyond the capability of the Department.

**11. Safety Committee**

A joint committee of the City and the Association shall consist of two (2) representatives appointed by the Union and two (2) representatives appointed by the City Manager. c. The Union President, or his representative, shall be granted time off by his Supervisor, platoon officer, from his job without loss of pay to investigate a grievance which he is to discuss with the Employer provided, however, it does not interfere with immediate work assignment and such time shall not exceed two hours in a working day.

### **STEP III**

a. If Step II fails to produce a settlement of the dispute, either the Union or the City may take the dispute to arbitration upon service of written notice to the other party of its intention to do so. This notice must be served within ten (10) calendar days from the receipt of the Step II answer, or the date when the Step II answer was due, otherwise, the right of arbitration of such dispute shall be deemed waived and the grievance shall be considered closed with no further appeal.

b. The parties shall establish, by mutual agreement, a panel of five (5) arbitrators. The panel may include fewer than five (5) arbitrators but under no circumstances may the panel fall below three (3). In the event that an arbitrator is unable to continue servicing on the panel, the parties shall appoint a replacement by mutual agreement. If the parties are at anytime unable to agree on at least a panel of three (3) arbitrators, all arbitration proceedings shall be conducted in accordance with the rules of procedure of the New York State Public Employment Relations Board.

c. Each party may, during January, strike one member from the panel by notifying the other party in writing no later than January 31st. No strikes from the panel will be allowed after January 31st.

In no event may the parties utilize a strike bringing the panel below three (3) people.

#### **PURPOSE**

The purpose of this policy is to assure worker fitness for duty and to protect employees and the public from the risk posed by the use of alcohol and controlled substances.

#### **APPLICABILITY**

Future employment as defined will be considered as if the application was for original entry into service for purpose of this policy. Receipt of satisfactory test results is required prior to commencement of employment and/or engaging in safety sensitive functions, and failure of a controlled substance test disqualifies an applicant from appointment to employment for a period of at least 120 days. Evidence of the absence of controlled substances dependency from a Substance Abuse Professional (SAP) and negative controlled substance tests will be required prior to further consideration for any employment, including reports from prior employers by an employee's written authorization.

### *Reasonable Suspicion Testing*

Reasonable suspicion testing will be used to determine fitness for duty evaluations, including appropriate urine and/or breath testing when there are objective observable reasons to believe that a controlled substance or alcohol use is adversely affecting an employee's job performance or that the employee has violated this policy. Reasonable suspicion referral for testing will be made on the basis of documented objective facts and circumstances which are consistent with the effects of substance use. Reasonable suspicion observations and reports can only be made by supervisory or management personnel who are trained to detect the signs and symptoms of controlled substance and alcohol use and who may reasonably conclude that an employee may be adversely affected or impaired in the employee's work performance due to the use of the controlled substance or alcohol. The observing supervisor or manager, whether or not the person is the employee's immediate supervisor, is required to complete the appropriate required documentation concurrently with the observation and consideration to impose reasonable suspicion testing.

### *Post Accident Testing*

### *Random Testing*

Random testing will be conducted on all persons covered by this policy. Random testing will be unannounced and conducted with unpredictable frequency throughout the year, using an established scientifically-based selection method. #### *Return to Work Testing*

Return to work urine drug and alcohol testing for all employees covered by this policy will be required for all employees who previously tested positive on a controlled substance or alcohol test. To return to work, the employee must test negative and be evaluated and released to return to work by a SAP before begin permitted to return to work.

#### *Follow-up Testing*

Follow-up testing of employees returning to work who previously tested positive on a controlled substance or alcohol test will include submission to unannounced random urine drug and breath alcohol testing at least six (6) times in the twelve (12) months following return to work.

Any employee questioning the results of a required urine drug test under this policy may request that an additional test be conducted. The test must be conducted on a split sample that was provided at the same time as the original sample and the test analysis will be conducted at a different qualified laboratory than where the original test was conducted. All costs for employee-requested testing will be paid by the employee unless the second test invalidates the original test. An employee's request for a re-test must be made to the Medical Review Officer (MRO) within seventy-two (72) hours of the notice to the employee of the initial test result. Requests made after the seventy-two (72) hour limit will only be accepted if the delay was due to documental facts that were beyond the control of the employee.

#### *Failure to Test*

Any employee who fails to submit to the required testing under this policy is considered to have tested positive and will be subject to all the consequences that follow related to positive testing.

Any employee ordered to test will report immediately to the test site upon being ordered to submit to testing. Only delays of the most dire circumstances approved by the employees supervisor will be considered or allowed, any other delay will not be granted or taken and will be treated as a refusal to test and will subject the employee to all of the consequences that follow related to positive testing. An employee shall remain on site until a sufficient sample is provided or a hair follicle sample is provided. Failure to provide a sufficient sample or for providing an adulterated sample will be considered as a refusal to test and will subject the employee to all of the consequences that follow.

### TESTING CONTROLS

*ALCOHOL:* An initial screening test is conducted first. Any result that is less than 0.02 blood alcohol concentration is considered negative. If the blood alcohol concentration is 0.02 or greater, a second confirmatory test must be conducted. Any employee who tests with a blood alcohol concentration of 0.02 or greater will be removed from service for at least twenty-four (24) hours.

Any employee who is found to have engaged in prohibited alcohol conduct under this policy will be immediately removed from work-related activity. The employee will not be permitted to resume work until the employee is (1) evaluated by a SAP, and (2) complies with the rehabilitation contract if such is required, and (3) has tested negative in a follow-up test.

*CONTROLLED SUBSTANCE:* Controlled substance testing is conducted by analyzing an employee's urine specimen performed at a laboratory certified and monitored by the U.S. Department of Health & Human Service for the following controlled substances:

- 1) Marijuana (THC metabolite)
- 2) Cocaine
- 3) Amphetamines
- 4) Opiates (including heroin)
- 5) Phencyclidine (PCP)

The testing for controlled substances is a two-stage process. First a screening test is conducted. If the test is positive for one or more of the controlled substances, a confirmatory test is conducted for each identified controlled substance. The confirmatory test is a gas chromatography/mass spectrometry (GS/MS) analysis.

Any employee who test positive on the confirmatory test will be interviewed by the City of Batavia Medical Review Officer (MRO). The employee will be immediately removed from work-related activity. The employee will not be permitted to resume work until the employee is (1) evaluated by a SAP, and (2) complies with the rehabilitation contract if such is required, and (3) has tested negative in a follow-up test.

#### EMPLOYMENT ASSESSMENT

An employee whom tests positive for the presence of controlled substances or alcohol above the minimum thresholds set forth in the federal regulations will be evaluated by a SAP. The SAP will evaluate who tests positive to determine what assistance, if any, the employee needs in resolving problems associated with the controlled substance or alcohol.

Assessment by a SAP does not protect an employee from disciplinary action or guarantee continued employment or reinstatement by the City of Batavia. The City of Batavia disciplinary policy provides guidance to the discipline that may be imposed, unless otherwise stated in this policy.

#### REHABILITATION EFFORT

Any employee who is determined to be in need of assistance for a controlled substance or alcohol-related problem under this policy by the SAP may be permitted to enter into a rehabilitation plan approved by the City of Batavia, provided the employee agrees to adhere to the terms of the rehabilitation contract with the City of Batavia. Employee benefit accruals may be used while

completing the rehabilitation assistance plan process.

The rehabilitation contract will include the following terms and conditions to be adhered to by the employee who is granted rehabilitation assistance:

- 1) The employee will agree to undertake and successfully complete the rehabilitation assistance plan established for the employee by the SAP or by a rehabilitation professional accepted by the City of Batavia; and
- 2) The employee agrees to refrain from any violation of this policy and the use of controlled substances and alcohol consistent with the plan of rehabilitation and this policy; and
- 3) The employee provides a release of all medical records for use and review by the City of Batavia relating to the rehabilitation assistance plan for the assistance undertaken and compliance; and
- 4) The employee agrees to unannounced random testing for the City of Batavia determined periods of time subsequent to the employee's relating to work consistent with this policy; and
- 5) The employee agrees to submit to return to work testing demonstrating that the employee is negative under controlled substance and/or alcohol tests standards; and
- 6) The employee agrees that any future controlled substance or alcohol violations will be considered as a resignation of the employee from service without recourse.

#### CONTRACTUAL SUPPORT PROFESSIONALS

The City of Batavia will secure a contract with an appropriately certified testing laboratory to conduct the controlled substance testing analysis and reporting required under this policy and under federal regulations in conformity with the standards established under federal regulations. The City of Batavia will contract for the required alcohol testing.

The City of Batavia will engage the services of an independent contractor to serve the City of Batavia as the MRO properly credentialed and trained in compliance with the federal regulations, who will not be an employee of the City of Batavia. ### INTRODUCTION

The City of Batavia provides employees, retirees and covered eligible dependents with an opportunity to participate in a wellness incentive program.

The program offers a unique way for employees to control health plan costs immediately while at the same time promoting healthier lifestyles long-term.

### HOW THE PLAN WORKS

The Employee Sponsored Group Health Plan offered by the City of Batavia to its employees includes a benefit deductible, an amount that must be satisfied by the covered employee before the plan benefits are (refer to medical plan benefits).

By qualifying for healthy lifestyles rewards, employees and/or their covered dependent spouses earn benefits that are used to reimburse them for expenses that accumulated towards the health plan deductible. Employees and/or their covered dependent spouses are eligible to earn rewards that may substantially reduce their total health plan deductible.

Exams are conducted onsite at a medical facility and are provided at no cost to the insured employees. Individual test results are not shared with the employer. Testing for 2007 will be conducted in month of September and/or October. Each year there after, exams will be conducted in the month of January and/or February.

Goals are outlined as follows:

Only for hires prior to 7/1/13.

All employees shall receive a full blood panel work up.

### UNION RULES GOVERNING SICK BANK

#### Sick Bank Rules

Union rules governing said sick leave "bank" as stated in Article II, Section 2(d):

1. A union member shall be entitled to use sick leave days from the "Bank" when said member has no sick leave left and:

- a. Said member has missed four scheduled working days after his or her sick days have run out. (The member has gone four days without pay.)
- b. There are sick days left in the "Bank" or sick days available from Union Members.
- c. If two or more union members are eligible for use of the "Bank", the sick "bank" shall be split between them.

2. The union president shall direct each platoon steward to contact each member of his/her platoon to see if they wish to donate to the sick bank. If the steward is unable to contact a member that shall constitute that the member wishes to not donate. The union president shall then inform the Fire Chief to deposit a stated number of days from each members wishing to donate into the sick bank, minimum one-half (1/2) day. Sick days not used after they are placed in the bank will stay there until needed by the next union member. Any benefit time (personal, compensatory, vacation, sick leave) earned by the member while using the sick bank shall be used prior to using additional sick bank days.

3. Sick leave days reimbursed to a union member who has used sick leave days from the bank shall be deposited in the sick bank. Reimbursement to the sick bank shall not exceed the number of days withdrawn from the sick bank by said member.

**APPENDIX D  
TRAINING AND DEMONSTRATIONS**

Chief's memo dated 10/31/89  
Improper Practice Charge U 11118

Members of the Fire Department will not be required to report for duty when on vacation unless:

- 1) An emergency situation occurs which in the judgment of the Command Officer requires additional staffing;
- 2) staffing is reduced below that which is indicated in Department rule 4-1.2;
- 3) personnel have, prior to selection of scheduled vacation and/or compensatory time off, been assigned or enrolled in training or education related to their positions, job assignments or special details. Such members must select vacation and Kelly time accordingly;
- 4) The training is required by State or Federal law and must be conducted at the convenience of other departments or agencies.

Members who request training and education must recognize the potential for conflict between their vacation/Kelly schedule and therefore select accordingly.

It is not the intention of the Fire Department to indiscriminately force personnel to report for duty when they are on vacation. However, if a member has committed to a particular program and there is no equitable way to excuse such member without unnecessary detriment to the Fire Department, then it is necessary for such member to complete the training and/or education.

**MEMORANDUM OF AGREEMENT**

The City of Batavia and IAFF Local 896, have agreed that the City will provide employees covered by the contract with the following jury duty benefits:

1. A member of IAFF local 896 who loses time from his job because of jury duty, as certified by the Clerk of the Court, shall be paid by the City his full daily salary provided he turns over to the City all stipends, except mileage reimbursement, received for the work day for serving on jury duty.
2. The employee must notify the City or its designee immediately upon receipt of a summons for jury service.
3. Adequate proof must be presented of time served on jury.
4. All employees shall be absent from work only during the times actually required by the Courts. Employees must report to work for their regular shift before and after jury duty.
5. If needed to maintain adequate staffing, an employee will be called for overtime to replace the employee on jury duty only for the actual hours during which an employee is absent due to jury duty, not the entire shift. The employee called for overtime will work and receive a minimum of five (5) hours pay.
6. Employees called for jury duty between May and December must request the Commissioner of Jurors to postpone their jury duty and reschedule it during the period from January through April of the following year as long as the request does not interfere with the employee's scheduled vacation and Kelly time as time off during the January through April time period.
7. Employees on jury duty may utilize time exchanges with another employee as long as it does not generate the need for overtime.
