## **10. SICK LEAVE**

1. Sick Leave is hereby defined as leave of absence from duty with pay granted to an employee by reason of such employee's own sickness or disability. Under no circumstance is sick leave to be construed as additional vacation due an employee, or an excuse for leave of absence with pay for any other purpose.

Sick Leave shall be construed only as an insurance or a protection to the employee provided by the City against the employee's loss of income due to legitimate sickness or disability, provided that such employee has met certain conditions and has accumulated sufficient sick leave credits to cover the period of sickness or disability allowed or allowable for the calendar year.

Each employee shall accumulate sick leave credits at the rate of one and one-quarter (1 1/4) working days for each month completed in service. Sick leave credits shall accumulate from the first day of service, provided, however, that no sick leave shall be authorized until the employee has completed six (6) months continuous employment. These sick leave credits, shall accumulate without limit.

The unit of computation of sick leave shall not be less than one-half (1/2) day. Credits cannot be earned for the period an employee is on leave of absence without pay. For the calculation of sick leave credits, the time recorded on the payroll at the full rate of pay shall be considered as time "served" by the employee.

Every sick leave is contingent upon the following terms and conditions:

a. The employee must have sufficient accumulated and unused sick leave credits to cover the period in question;

b. In order to qualify for sick leave, proof of disability must be provided by the employee, satisfactory to the Fire Chief. The employee, or his agent must report such sickness or disability on the first working day of such absence at least thirty (30) minutes before his scheduled tour of duty.

c. The Fire Chief may require a physician's certificate for any absence where the illness or disability is of long duration; a physician's certificate may be required for each seven (7) calendar days of continuous absence. In any case, the Fire Chief may require an examination by the City Physician or other acceptable evidence that the illness is bona fide.

The Fire Chief, in addition to the above, may require an employee to submit to an examination by the City Physician, and the Fire Chief shall arrange such appointment. Whenever an employee has been on sick leave for thirty (30) successive calendar days, the Fire Chief must require that the employee be examined by the City Physician, and in the event such employee shall fail to submit or refuse consent to such medical examination, he shall be deemed to have waived his rights under this article.

In the event that the City Physician should find out that the employee is able to perform his regular duties or to perform light duties, and the employee shall refuse to return to performance of his regular duties or to perform light duties if the same is available and offered to him, he shall be deemed to have waived his rights under this article.

d. Upon proper evidence of a bona fide illness, any employee shall be entitled to draw on his accumulated and unused sick leave credits.

e. An employee isolated or quarantined because of exposure to a communicable disease, may for the purpose of this regulation be considered absent because of sickness and may be granted sick leave with pay during such isolation and/or quarantine to the extent of his accumulated and unused sick time leave.

f. Whenever an employee shall be absent on sick leave and the period for which he is absent includes a day or days upon which such employee was not scheduled to work, such day shall not be charged against his accumulated and unused sick leave credits.

g. Allowable and allowed sick leave time shall be considered, for all purposes, as continuous service.

h. The Fire Chief shall maintain records of accumulated unused sick leave credits for each employee, and a record of the total sick leave granted to each employee.

2. Sick Leave Termination Pay. Upon formal retirement through the New York State Policemen and Firemen's Retirement system, or upon the death of an active employee, the individual member of the Bargaining Unit or his estate shall be compensated for his unused, accumulated sick leave by receiving an amount equal to fifty percent (50%) of the total of the accumulated sick leave times the individual's normal rate of pay. One-half of the entitlement shall be paid immediately upon retirement. The remaining one-half of the entitlement shall be paid one year after the effective date of retirement, unless the employee requests the entire amount at retirement.

## 11. LEAVE DAYS

Each employee of the Fire Department may be granted leave without loss of pay, sick leave, vacation or other benefits, on account of death in the employee's immediate family upon satisfactory evidence of such situation.
